Preparation of AZ Tax Return Form 140NR

- The AZ return is substantially similar to the federal tax return
- If all your income was from AZ sources, use Form AZ 140NR
- If your income was from both AZ sources and other states, you may need to file an AZ return and a return for the “other” state
- You may want to file an AZ return to obtain a refund of withholding taxes even though you have no AZ tax liability

Preparation of AZ Tax Return Form 140NR

- The major difference between the federal tax return and the Arizona tax return is in the choice of filing status:
 - If married on 12/31/2020, ***and your spouse has SSN or ITIN***, you may choose married filing jointly as your filing status although your federal status may have been married filing separately
 - If children are US Citizens with SSN, you ***may be*** eligible for additional credits
